YOU DESERVE A
PURPOSE-FILLED LIFE

Customized care to help individuals
with IDD and their families thrive.

Covenant ClinicalCare

NURSING OVERSIGHT IN RESIDENTIAL SETTINGS

(SPECIALIZED CONSULTATIVE SERVICES (SCS) NURSING)

Covenant ClinicalCare provides tiered nursing oversight tailored to the needs of individuals in residential care settings. It ensures both baseline health monitoring and specialized nursing support based on the level of medical complexity and service enrollment.

WHO IT'S FOR

- All individuals in residential IDD settings, regardless of clinical complexity.
- Individuals enrolled in Specialized Consultative Services due to elevated health needs or physician-directed care requirements.

HOW IT WORKS

1 Monthly Medication Administration Record (MAR) Review

A licensed nurse conducts a monthly spot-check of Medication Administration Records. Reviews for errors, omissions, and PRN documentation.

2 Medication Error Follow-Up

Nurses review any reported med errors and provide retraining or recommendations.

3 Change in Status Notifications

Staff must notify the nurse of ER visits, hospitalizations, extended time away from the residence, or any medication changes.

4 Quarterly Health Check-Ins

A general health review is conducted every quarter to identify emerging concerns or the need for SCS referral.

WHO QUALIFIES

✓ NC Innovations Waiver residential placements; not billed separately.

✓ Requires referral and enrollment in SCS per state criteria.

✓ Service Code: NC Innovations Waiver – Specialized Consultative Services (Nursing).

✓ Must be medically necessary and documented in the individual's Person-Centered Plan (PCP).
