RESPITE CARE

Respite care provides temporary relief to primary caregivers, allowing them a break from the demands of caring for a loved one who has intellectual or developmental disabilities (IDD). This planned or emergency service can take place in the individual's home, caregiver's home, or in the community.

WHO IT'S FOR

- Parents caring for individuals with disabilities (physical, intellectual, or developmental).
- Caregivers or Guardians who need a break to recharge, attend to personal matters, or handle emergencies.

HOW IT WORKS

1 Assessment & Planning

We work with you to understand your loved one's needs, routines, and preferences to create a personalized respite care plan.

2 Caregiver Matching (If Applicable)

If in-home respite is desired, we carefully match skilled and compassionate caregivers to your loved one.

3 Service Delivery

Qualified caregivers provide attentive care, which can include personal care, medication reminders, meal preparation, engaging in activities, and providing companionship.

4 Ongoing Communication

We maintain open communication with the primary caregiver to ensure a seamless and supportive experience.
