## COMMUNITY NETWORKING

Community Networking helps individuals with intellectual and developmental disabilities (IDD) engage in meaningful activities within their community. This service encourages participation in activities like volunteering, visiting parks, and joining local programs to promote independence, socialization, and community inclusion.

### WHO IT'S FOR

- Families seeking opportunities for their loved ones to engage with the broader community while receiving necessary support.
- People with IDD who want to build social connections and pursue personal interests in integrated settings.

### HOW IT WORKS

#### 1 Assessment & Goal Setting

We collaborate with individuals and their families to identify personal goals and interests that align with their definition of a purpose-filled day.

#### 2 Activity Planning

Based on the individual's preferences, a schedule of community-based activities is created. These activities occur in integrated settings outside of the individual's private residence.

#### 3 Participation & Support

Trained staff or providers assist individuals in participating in chosen activities, ensuring they have the support needed to engage fully and safely.

#### 4 Ongoing Evaluation

Regular check-ins ensure that the activities remain aligned with the individual's goals and provide opportunities for growth and integration.

### WHO QUALIFIES

NC Innovations Waiver Recipients.
